Deschutes County Extension Office, Redmond

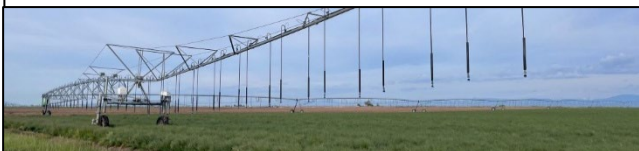

November 19, 6-7:30pm

Firewise, Habitat-wise -- Wildlife-Friendly Fuels Reduction Strategies (FREE)

Deschutes County Extension Office, Redmond

Free Catch-Can and Application-Rate Evaluations for Center-Pivot and Linear-Move Irrigation Systems

The COAREC [Agrohydrology Research & Innovation Lab](#) is offering free irrigation evaluations to producers across Central Oregon. Our team will conduct catch-can tests to measure how uniformly center-pivot and linear-move systems apply water across a field. We will also evaluate each system's actual water-application rate. The results will help producers determine whether water is being applied evenly and at the intended rate.

To have your system evaluated, contact Floyd Nicolas at floyd.nicolas@oregonstate.edu.
